Action required
Hi there! 👋
Start a chat. We're here to help you 24/7.
I am not able to login to the mobile app. How to resolve this issue
If you can't log in to the mobile app, try the following steps:
1. Check your internet connection – make sure you have a stable data or Wi-Fi signal.
2. Verify your login details – confirm that you are entering the correct user ID/password (or other credentials).
3. Use the official recovery process – if you've forgotten your password or user ID, follow the bank's password/user-ID recovery procedure provided in the app or on the bank's website.
If you still cannot access the app after these steps, contact the bank through a verified support channel (e.g., the official phone number or in-app support). Avoid making repeated login attempts, as the bank may lock the account after multiple failures.
How to apply for health insurance?
Sorry, the requested information is not available in the uploaded document.
